## **Pennsy Supply, Inc. acquires Delaware-based Pioneer Concrete**

Pennsy Supply, Inc. of the Mid- Atlantic Group of Companies of Oldcastle Materials, has acquired Pioneer Concrete, Inc. of Wilmington, Del.

Pioneer Concrete was established in 1993 by brothers Michael and Bill Petrillo, fourth-generation concrete producers. The company includes four concrete plants located in Wilmington, Bear and Dover, Del., as well as Avondale, Pa. The 120-employee company provides ready-mix concrete and concrete pumping services for residential, industrial, highway, and commercial contractors throughout Delaware, Maryland and Pennsylvania.

Pioneer Concrete also will retain its brand, local identity and some autonomy as it joins the Mid-Atlantic Group. Former owners Michael and Bill Petrillo remain with the company as general manager and operations manager, respectively, and all current employees are being retained as well.
