NEWS IN BRIEF

Pioneer Concrete Opens New Maryland plant

■ Wilmington, Del.-based Pioneer Concrete has opened a new plant in Delmar, Md. The plant will service Sussex County, Del., as well as most of the Eastern Shore of Maryland with ready-mix concrete and concrete pumping services for residential, industrial, highway, and commercial contractors. Pioneer says it is the first producer in Sussex County to operate a fleet of front-discharge mixers that will service the region. The opening marks the fifth Pioneer Concrete plant in the region, joining locations in Wilmington, Bear, and Dover, Del., as well as Avondale, Pa.
